Next Steps

To put this in place, two documents are required: a signed Master Services Agreement (MSA) setting the overall terms, and a Statement of Work (SOW) covering these time-and-materials rates and billing terms. Once both are signed, you can request support whenever you need it and we'll schedule promptly.

To get started or ask any questions, contact Brian Camp at 972-807-0878 or bcamp@teamlogicit.com. If your support needs grow, we're glad to discuss a flat-rate managed services plan that can lower your overall cost.
